

International Runner Services

R·M·S®

Working Capital Optimized

Runner Services

In countries where either the personal delivery of invoices is the normal practice, mail services is not reliable, or where things such as the date for the delivery or payment collection is very specific, RMS provides runner services. Governed by the laws of the various countries, RMS employees physically visit the debtor in order to provide:

- **Invoice Delivery** - authorized signature collected for tracking if required or allowed
- **Payment Collection** - authorized signature collected for tracking if required or allowed
- **Skip Tracing** - the investigation of debtors who have moved with no forwarding address

The physical delivery of invoices in many major international cities, such as in Latin America and the Pacific Rim, can be the standard or expected service and therefore may already be included in the cost of collection. Additional fees may be charged for deliveries to remote areas, payment pick-ups, or to have skip tracing investigations done.

RMS is Worldwide

Doing business in a country that is not your own, or that crosses borders, requires a detailed understanding of languages, customs and laws. RMS maintains offices and business relationships worldwide to best access the knowledge and skills of the geographic areas we serve. We are licensed and/or bonded in every international location in which we do business, and maintain a full-time licensing staff including attorneys, paralegals and support personnel, to continually ensure our compliances with international laws and practices.

Benefits:

- Eliminate debtor receipt questions with personal invoice delivery
 - Date and time of delivery tracked/documented
 - Signature received where required and allowed
- Site visits result in more payments
 - The effort of a personal visit communicates an increased seriousness by the creditor to collect
 - The visibility of the debt made by a public visit encourages debtor settlement
- Find debtors who have closed or relocated by being able to personally speak with new tenants, neighbors, or local authorities

Contact Us

RMS operates globally with offices in Canada, China and Hong Kong, India, Mexico and the United States.
